LODGE DE MONTAÑA

Après Ski Mountain Lodge sits less than 100 metres from the first lift at Laderas Cerro Perito Moreno, making it one of Argentina's few true Ski In & Out hotels.

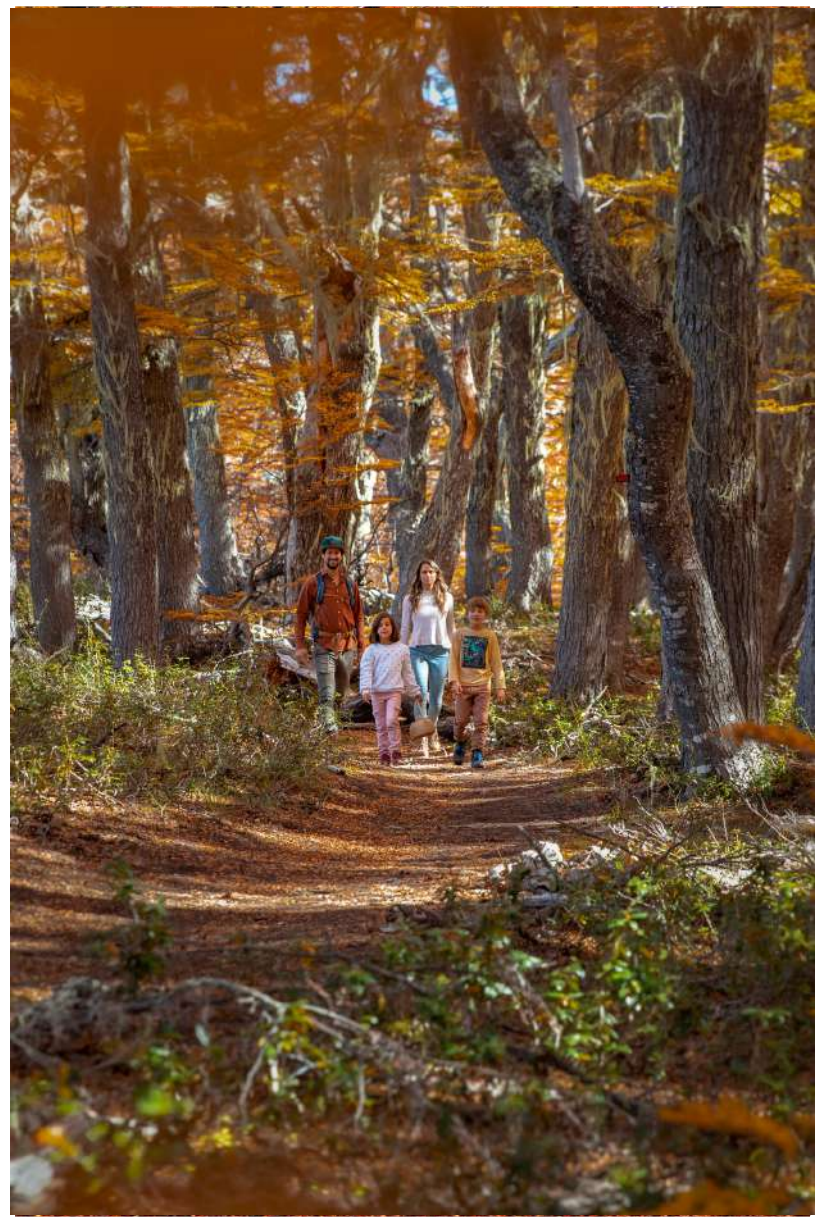

NATURE

Set in the highest part of Mallín Ahogado, 25 km from El Bolsón and 90 km from San Carlos de Bariloche Airport, just off Route 40.

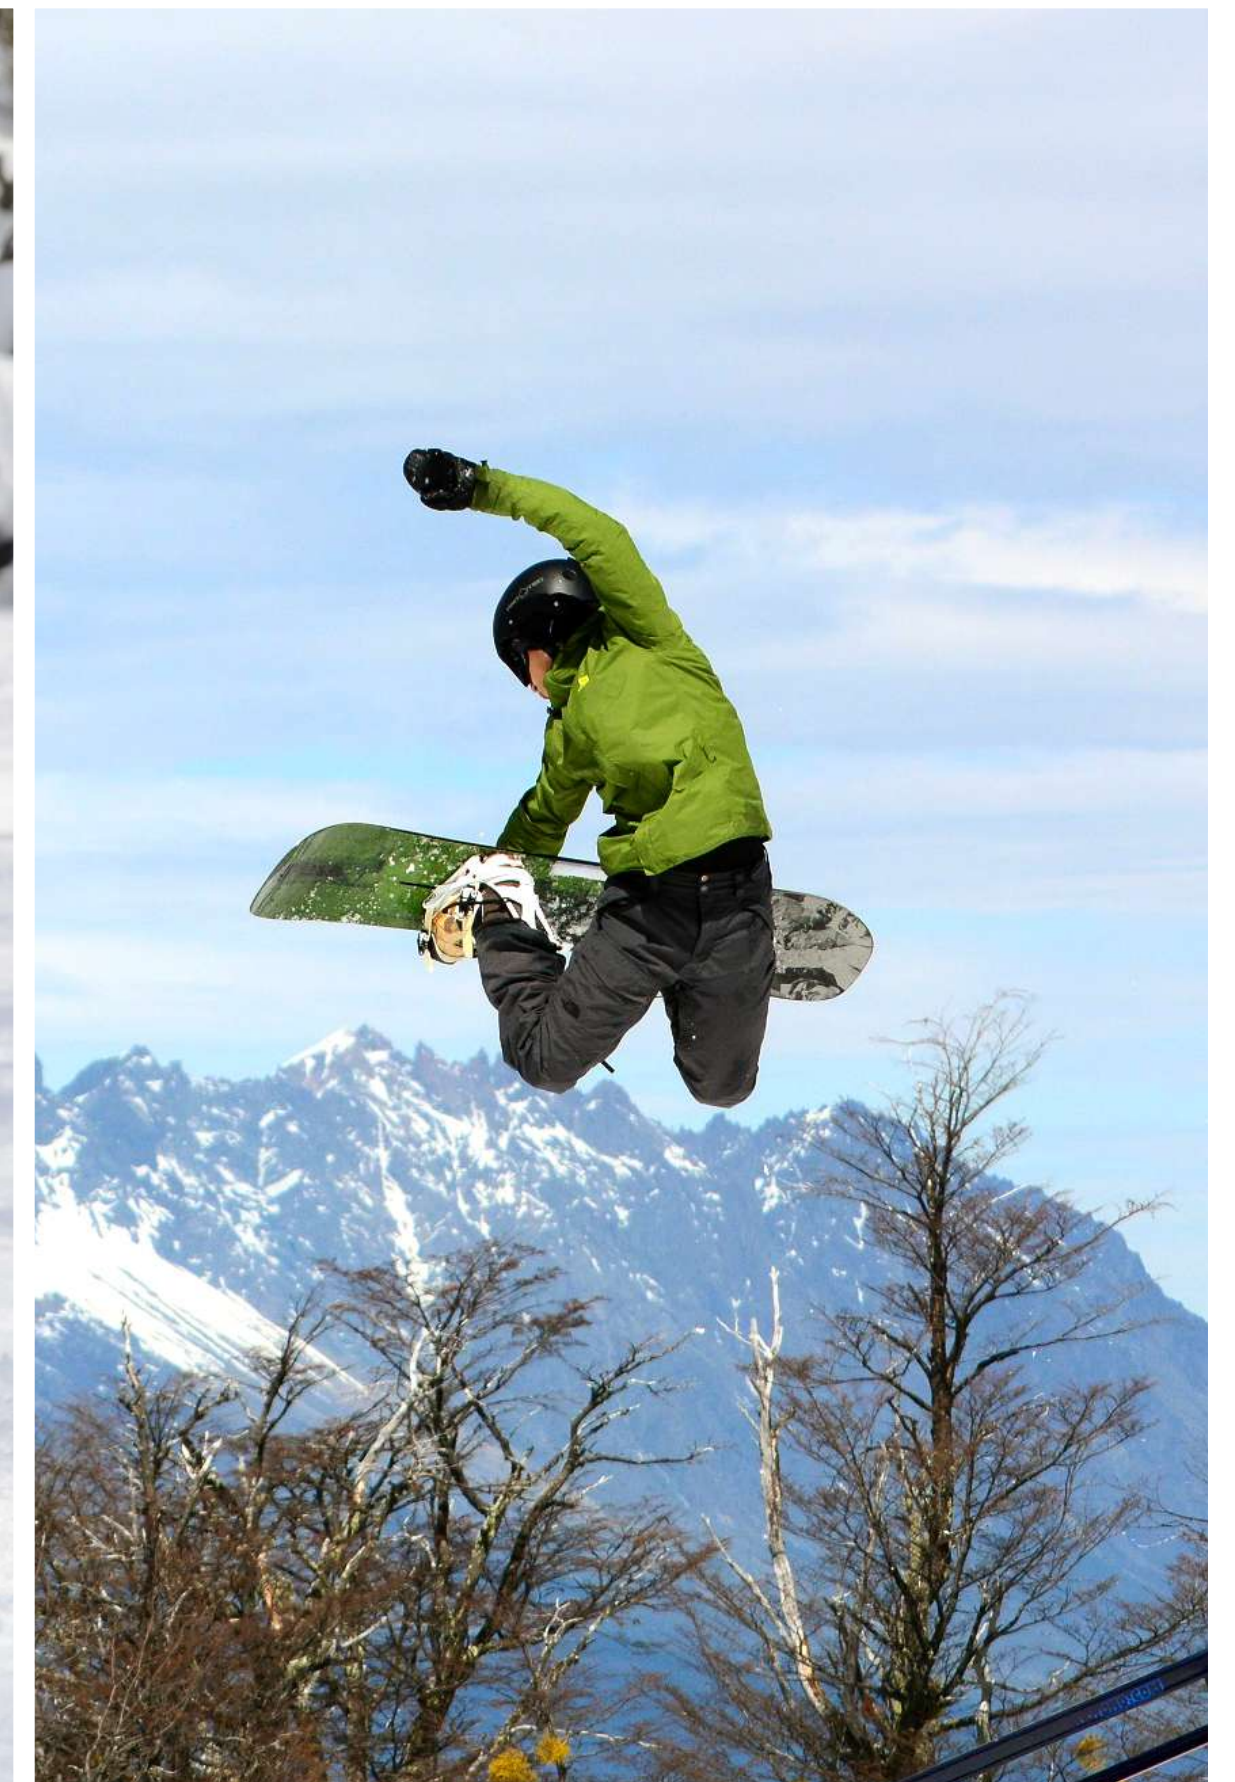

In the Patagonian Forest region, deep in the Andes, the lodge is surrounded by ñire and radial trees and other native species.

Local vegetation includes laura, retamo and colihue bamboo, shaping a distinctive mountain landscape.

ACTIVITIES FROM THE HOTEL *SKIING AND SO MUCH MORE*

In winter, simply pull on your boots and skis and glide out of the hotel to reach Laderas Cerro Perito Moreno in seconds. Ranked among Argentina's four ski areas with the most skiable kilometres, it is known for the quality of its slopes and excellent technical progression, making it ideal for families.

ACTIVITIES FROM THE HOTEL

During the mountain's operating months - January, February, late June, July, August, September and mid-October - guests staying at Après Ski receive a complimentary pass for unlimited use of the lifts throughout their stay.
